ADN-CIP Meetings

Program Outcome Committee Minutes

Friday February 2, 2007

Telephone contact began at 10:30 am.

Each member had read numerous articles, Healthy People 2010, NLN Competencies, IOM competencies, and outcomes from various ADN programs in NC prior to the meeting.

First, began considering the topics to be considered when writing the outcomes: topics mentioned included maybe not more than 12; core values, IOM competencies, and new standards.

Looked at the proposed outcomes submitted by Helen Ayers.

- Helen explained that she used the NLN Competencies as a guide when writing the outcomes; combined the heading and the subtopics under each heading to develop the outcomes.

The committee examined each outcome comparing it to the headings and subtopics of the NLN competencies for anything that was not evident.

Revisions were made as the committee reviewed each one.

Plans made for revisions to be typed up incorporating the headings from each NLN competency if it did not exist in the outcome. Linda will do this and send to each member by email.

NEXT MEETING planned for February 19th 2 pm. Linda will obtain telephone to call and send by email.

The meeting adjourned at 12:45 pm.
