Description: This module focuses on the concept of consumer education. This module will focus on alternative therapies for hypertension, high cholesterol, erectile dysfunction, and depression exemplars.

Learning Outcomes:

Upon completion this module the student will be able to:

1. Identify common CAM used for hypertension, high cholesterol, erectile dysfunction, and depression exemplars.
2. Describe the risks and benefits of CAM use for hypertension, high cholesterol, erectile dysfunction, and depression exemplars.

Learning Resources:

Preparation for class: Research use of CAM for sexuality and reproductive exemplars (instructor to assign specific areas i.e. hypertension, high cholesterol, erectile dysfunction, and depression exemplars).

Learning Activities:

Discussion/presentations of research findings on specific exemplars

Evaluation:

Tests, oral and/or written presentations
